ABSTRACT

This encyclopedia makes accessible information, scholarly interpretation, and a historical context for what is know about higher education in the United States. The two-volume set contains more than 200 entries from more than 150 higher education experts. Volume I contains a list of entries, a preface and acknowledgments, and an introduction. Volume II contains two appendixes, one a list of important books about higher education, and the other a list of important events in the history of higher education. This volume also contains a 47-page bibliography. Volume I contains alphabetical entries from A-L; Volume II contains entries from M-Z. (SLD)
